

3 MAR 1975

MEMORANDUM FOR: Director of Personnel

SUBJECT : FY 1975 Year-End On-Board Strength

1. This Directorate currently is considerably over its FY 1975 ceiling and may not be able to get down to ceiling by year-end unless we restrict EODs to a degree unacceptable to me. This situation is due primarily to the requirement that we count part-time employees against our ceiling. I do not believe that I should pass up opportunities to recruit full-time employees who have critical skills which are in very short supply to accommodate part-time employees who, on 1 July, will not count against my ceiling.

2. I anticipate therefore that this Directorate could be over its year-end personnel ceiling of [] by as many as [] people. This will be roughly equivalent to the number of part-time employees we will have who will count against our ceiling.
